

## Press release

Date 2008-12-08

### ING REIM Nordics and AREIM end cooperation

The formal cooperation between ING Real Estate Investment Management Nordics (ING REIM) and Anderson Real Estate Investment Management (AREIM), which has been ongoing since 2005, has ended through a mutual decision.

AREIM has played a successful role in deal sourcing, transaction advice and supporting the setup of ING REIM first Nordic fund which reached approximately € 1 billion at the end of 2007. Correspondingly, for AREIM the cooperation has been essential for the build-up of its own fund business, where SEK 2.1 billion was raised from three major institutional investors during 2007.

As ING REIM now has a fully established asset- and fund management organization in the Nordic region and AREIM increasingly shifts focus toward its own fund operations, the decision to part ways is a natural progression.
